Student counselor

Counseling Center

The Counseling Center at NBS provides professional assistance and guidance to the students in resolving their personal or psychological problems. The counselor, with the help of a class teacher, identifies the needs of every student and offers professional support for anyone dealing with anxiety or stress. The center is also open to any student who seeks help on their own or through teachers, guardians, or parents. The Counselling Center aims at providing a safe and conducive environment for students to share their grievances and upholds the confidentiality of every student. The Center comprises professional and qualified staff in a comfortable environment dealing with mental health problems among young adults. NBS has always prioritized the health and well-being of our students and has been hands-on about assisting students facing difficulties. The institute offers a full-time counselor who guides the students as well as addresses their needs. If necessary, parents are also welcome to partake in counseling services offered by the college. Apart from institute counseling, NBS offers one-on-one counseling between small groups of students and a mentor is appointed by the faculty. The mentor is available to students throughout the academic year.
